

CJJC2025 Toyama

The 14th China-Japan Joint Conference on Material Recycling and Waste Management

October 27-31 2025, Toyama, Japan

Conference Venue : Aubade Hall Toyama <https://www.aubade.or.jp/>

Call for Papers

The 14th China-Japan Joint Conference on Material Recycling and Waste Management (CJJC2025) brings together leading researchers and engineers committed to waste management. The goals are to: (1) Share updates on regional waste issues, (2) Identify common challenges, (3) Exchange ideas and promote collaboration, (4) Share knowledge on technologies and systems, and (5) Strengthen networks within and between China and Japan. The conference aims to enhance quality of life and support environmental sustainability in East Asia.

- TOPICS**
- ▶ Waste management strategies, planning, and policy innovation
 - ▶ Waste collection, transport, intermediate treatment, and final disposal
 - ▶ 3Rs and beyond – including circular economy approaches
 - ▶ Decarbonization and carbon neutrality in waste systems
 - ▶ Contaminated site remediation and environmental restoration
 - ▶ Emerging issues in waste management (e.g., PFAS, marine plastics, AI/IoT applications)

Important schedule

Paper title and conference registration : June 30th, 2025

Full paper submission : September 16th, 2025
